PRESS RELEASE

By: Sgt. Robert Kozlowsky
October 28, 2009

Burn off scheduled in Downtown

During the beginning of November, Yankee Gas is planning to perform routine maintenance to the propane storage tanks at their facility located downtown by Howe Ave and Cornell St. The maintenance consists of performing a safe burn off of the propane vapor from the tanks. The burn off will cause a flame of gas to be visible by people in the area. Yankee Gas personnel will be on scene during these burn offs.

Regulators at the Gas Pipeline Safety Unit of the Department of Public Utility Control along with the Fire Marshall have approved this maintenance at the facility.

Attached with this press release is a picture of what the burn off will look like.
